**Subject:** redrilling of well UWBZ34

Don – as I have been reviewing Williams data lately, I noticed again that the July 8 weekly report states that well UWBZ34 was re-drilled. I don't remember this ever being discussed during one of our meetings or calls, what was the reason for re-drilling it? Where was it located relative to the original well? Could you please provide the drilling log for this new well – thanks Eva
